DETAILED ACTION

Claim Objections

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 101-142 have been renumbered 76-

118. *Election/Restrictions*

2. Applicant's election of Group I claims 1-26 in Paper No. 8 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). New claims 101-124 which have been renumbered 76-99 currently read on the elected Group.

3. Claims 125-142 which have been renumbered 100-118 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 8.

Drawings

4. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on April 3, 2003 have been disapproved because they introduce new matter into the drawings. 37 CFR 1.121(f) states that no amendment may introduce

Art Unit: 3727

new matter into the disclosure of an application. The original disclosure does not support the showing of the carrier frame with the structure as depicted in figure 55-D or the manner in which it is mounted as shown in figures 55-D and 55-D'.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 76-99 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

Applicant's claims continue to attempt to define the claimed invention by what it is intended to be used for and how the invention functions. This is improper and indefinite. The claims must specifically define and point out the "structure" that makes up and forms the invention.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 76-99 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Fresco 5,609,278.

Due to the indefiniteness of the structure set forth in the claims, a clear representation of the claimed invention cannot be determined. Fresco, however teaches an articulated backpack comprising a frame which is convertible to a wheeled carrier and attachable to a bicycle/scooter which has lower left and right points and an upper portion which has a center. The upper center point of the frame is clearly capable of receiving a bag which is configured to have a central attachment means.

Response to Arguments

3. Applicant's arguments filed April 3, 2003 and May 16, 2003 have been fully considered but they are not persuasive. Applicants arguments directed to how the prior art differs from applicants "disclosed" invention are not persuasive. Applicants claims must define and set forth the meets and bounds of the invention which is being claimed. The claims as they are currently presented fail to do this. The structure as set forth in the claims is such that it fails to define over the prior art given that the claims are so indefinite.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3727

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
